

Information sheet for further processing flow of the event of a claim:

Ladies and Gentlemen,
after the on-site verification following operations are still carried out:

1. report creation
2. repair cost and replacement cost determination
3. Test report delivery to the agent of the insurance within the next 3 working days
4. After transmission of the reports the agent will contact you shortly.

Please understand that any statements about the plausibility, repair costs and replacement costs incurred during the on-site inspection. A statement on disposal and release regulation and height adjustment can not be made on our part. This may only be the clerk.
